Using the CUBES strategy, try answering the following 2 questions:

1) Mrs. Proulx went to the store to buy Halloween candy. She bought 19 boxes of candy. Mme Belanger needed some candy, so Mrs. Proulx shared 9 boxes. How many boxes did Mrs. Proulx have left?

2) Mrs. Blais went to the pumpkin patch and counted 16 pumpkins. Mrs. Gauthier went another day and there were only 4 left. How many pumpkins were taken?
